To Whom It May Concern:

Re: Quality of workmanship

We have had Museum Quality Restoration repair, refinish and totally restore many fine antique furnishings as well as new. Mr. Fry has completely and beautifully restored pieces of furniture to their original state and luster that would have seemed beyond repair.

My restoration work is sent to Mr. Fry with the absolute confidence in his ability, plus He is always willing to follow through to complete his work and stands behind each order, even when the customer changes their mind about trim or color.

Sincerely Submitted,

Fern V. Cooper
