To Whom it may concern:

I was first introduced to Mark Fry by my cabinet maker when I was seeking to restore an antique bureau - a family heirloom. He did such an astonishing job that I chose him to do the finishing on all the wood in my extensive remodel - kitchen, library, living room, three bathrooms and an armoire.

After 8 seasons of use here in our desert climate I called him to 'refresh' the finishes. He has brought back everything to it's original perfection, magically re-melting any cracks in the lacquer.

In my eyes he is truly an artist, a magician.
