Interior Design and Consultation

To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation regarding the services of Mark Fry at Museum Quality Restoration Services. I have worked as an interior designer for the last twenty years, and have the fortune to work with the most skilled craftsmen available. Because these artisans produce work that is consistently outstanding, they make what I do look good. Mark Fry is one of those people.

Mark has a wide range of expertise. I have used him for straightforward refinishing, as well as complex rework of delicate bone finishes. Mark will take jobs that other finishers will not attempt. Due to his many years in the business, Mark's knowledge of high end furniture finishes literally cannot be exceeded. He is an expert in wood finishes, lacquer, crackle and exotic materials, as well as being able to repair museum quality furniture.

Another reason I enjoy working with Mark has to do with his communication skills. Mark is honest, direct and will stand behind his word. He will advise status of work in progress on a regular basis. Mark takes the initiative to keep me informed.

I would highly recommend Museum Quality Restoration Services to anyone interested in working with a quality-minded professional. It is a pleasure to work with Mark. Feel free to call with any questions you may have.

Sincerely,

Terry Cornett
