

August 2014

To whom it may concern;

I write the following letter of recommendation for Mark's Museum Quality Restorations. I high recommend the craftsmanship and quality of work. In fact, Mark is a perfectionist in ever respect.

Mark restored several 1950's style pine furniture that has been in the family since initial purchase. Mark repaired and restored the furniture while repainting them professionally. It made the furniture look classic but eloquent at the same time giving the furniture an updated contemporary look for 2014.

His prices are reasonable and quality outstanding!

Sincerely,

Clay Sterzik
