To Whom It May Concern:

As the owner of Brooks Woodworking I would highly recommend Museum Quality Restoration Services. When your business revolves on quality you must be careful who you choose to work with. Mark Fry has handled our fine furniture finishing since 1998. His hardwork has been greatly appreciated. I always felt confident that he would treat our furniture with as much care as we put into building it.

Mark understands all the necessary steps that lead to a high quality product. If the piece is truly special, it's worth the investment to assure quality results. If anyone is looking for a superior quality finish I would absolutely recommend Museum Quality Restoration Services.

Sincerely,

Steve Sobczyk
