Mr. Mark Fry
Museum Quality Reproductions
7402 Prodan
Huntington Beach, CA

Dear Mark:

This letter will serve as a top recommendation for the quality of your workmanship which truly reflects the name of your company, "Museum Quality Reproductions".

I am a member of NHFL (National Home Fashions League) which is a national organization of women in the business of interior design, and other areas of design. Your name was first given to me several years ago when we were working on the "House of Design" in Newport Beach, sponsored by the Newport Beach Jaycees and NHFL.

You had designed and made a beautiful hand-carved fireplace and mantle for one of the rooms, for The Partners, (designers) and I know you received many inquiries for work as a result of this participation..

Since then, the pieces of furniture which you have finished for me have been absolutely beautiful, and the recent job for Mrs. Brown in Laguna Hills, re-doing her antique chest of drawers, which involved re-gluing, stripping and refinishing, pleased her and me beyond what we had expected.

As you know, I have mentioned the antique furniture which is mine personally, and I have hopes of having this all re-finished sometime this spring. It is at least 100 years old and I would not let just any one work on it.

Sincerely,
Liz Sanders Designs

Elisabeth H. Sanders
